Evidence based medicine in Migraine

October 1-7-14, 2024

A series of 3 Virtual Classrooms on Migraine

During the virtual classroom series participants will:

- Understand patient centric focus in the diagnosis, treatment, and goal setting of migraine patients.
- Discuss through case examples, how to manage migraine worsening, co-morbidities, and clinically high-risk groups of MoH.
- Have an opportunity for Q&A and academic interaction with international experts in Migraine.

Session 3 - The future ahead of us in the treatment of Migraine

October 14, 2024 - 17:30-19:30 CEST (UTC+2)
